

## EN54-7

Item Number	Product Reference	Type of detector	Sensitivity / Classification / Category	Bases	Description of the model ( <i>state whether it is conventional or analogue addressable, information to distinguish the various models</i> )
1		Open/Closed			
2					
3					

Base(s):       a)  
                  b)  
                  c)

Sensitivity for smoke detector:

Drift compensation:   Yes/No

On-site adjustment:   Yes/No

List the detection mode:

Manufacturer specification			
Operating temperature		Input/output	
Voltage range + Nominal		Batteries	
Communication protocol		Mounting	
Product size / weight		Weight	
Environmental classification		Cable type	

Additional request ( <i>exceeding standard requirement</i> )			
Operating temperature			
Enclosure protection	IP:		
Enclosure protection	IK:		

Additional functions:

Card reference / accessories	Function	Description

Device software: Yes / No

Firmware Version:

*Note: if software different for one variant to another, please specify*
